

Med Spec® SI Belt

With its unique design, the Med Spec SI Belt provides exceptional pelvic-sacral support. The superior materials of the Med Spec SI Belt allow for the brace to be worn comfortably underneath clothing while remaining in its proper position throughout daily activities. The Med Spec SI Belt provides your patients with the sacroiliac support they need and enhances their compliance with a comfortable and low profile design.

Features

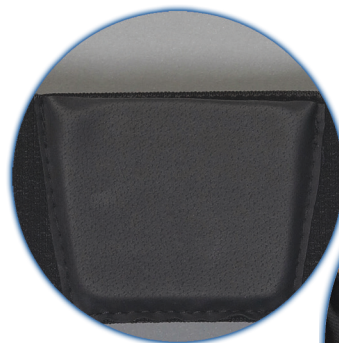

- Outer inelastic nylon belt
- Posterior plastic panel & foam pad
- Two lateral SkinLoc™ pads
- Latex-free elastic liner

Benefits

- provides circumferential compression to help immobilize the sacroiliac joints
- provide additional circumferential compression to help immobilize the sacrum
- grip the skin or underlying clothing to limit the belt's migration
- allows for ease of application and is comfortable enough to be worn directly next to the skin
