

Ryno Lacer® II

Wrist & Thumb Support

With its patent pending design, the new Ryno Lacer II provides equal tension across all laces offering supreme comfort, ease of application and superior immobilization of the wrist and thumb.

Lacer II Closure System

Unique lace closure design provides equal tension across all laces to easily generate uniform compression for unparalleled support. The tension can be easily adjusted for patients with disproportionate forearm and wrist circumferences.

Comfort and Compliance

New softer proprietary felt liner contains polypropylene and wicks moisture away from the skin. Memory foam padding in palm and around base of thumb enhances comfort and support.

Radial, Palmar and Dorsal Stays

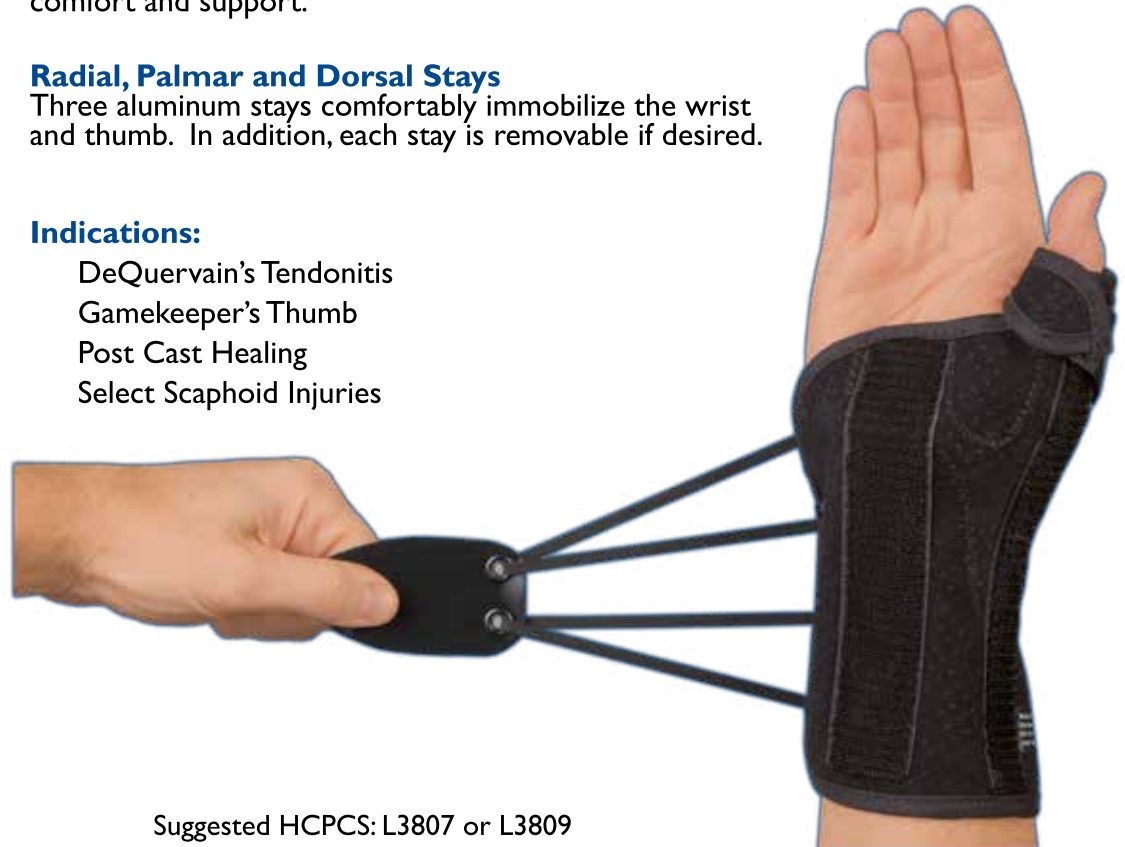

Three aluminum stays comfortably immobilize the wrist and thumb. In addition, each stay is removable if desired.

Indications:

- DeQuervain's Tendonitis
- Gamekeeper's Thumb
- Post Cast Healing
- Select Scaphoid Injuries

Long Ryno Lacer II

Short Ryno Lacer II
